Frozen / IQF	Strawberries, okra, molokhia, spinach, mixed vegetables

## Where Egypt's produce goes

Egypt's produce reaches more than 176 countries. The EU, Russia and the Gulf (Saudi Arabia, UAE) form the core, with the Netherlands as the EU gateway. In 2025 Egypt added or expanded access in Venezuela (all citrus), Mexico (hibiscus), Japan, the Philippines and the Caribbean.

## Detailed export reports

- Egyptian Citrus Export Report 2026 — oranges, mandarins, lemons, grapefruit ([peitrade.com/egypt-citrus-export-report-2026/](https://peitrade.com/egypt-citrus-export-report-2026/))
- Egyptian Mango Export Report 2026 — varieties, destinations, prices ([peitrade.com/egyptian-mango-export-report-2026/](https://peitrade.com/egyptian-mango-export-report-2026/))
- More crop reports (grapes, pomegranate, potatoes & onions, strawberries) in preparation.

## PEI Trade — sourcing the whole basket

PEI Trade is a B2B exporter of Egyptian fresh and frozen produce across all categories above, working only with verified farms and approved packing houses, with third-party inspection (SGS / Intertek) on request. Exports move from Alexandria, Damietta, Sokhna and Port Said under Incoterms 2020 (FOB, CFR/CIF, DAP/DPU) in 40' reefer containers.

## Sources & methodology

Headline volumes are official Egyptian figures from the Central Administration for Agricultural Quarantine (CAPQ) and the Ministry of Agriculture, reported via national media. CAPQ figures are based on issued phytosanitary export certificates and can differ from HS-code customs trade statistics (e.g., the CAPQ mango figure exceeds the HS 080450 trade figure used in the Mango Report). Crop-level reports cross-check against USDA FAS, OEC, ITC Trademap and trade press.

- Egypt Independent — agricultural exports surpass 9 million tons in 2025
- Daily News Egypt — product-level breakdown (CAPQ)
- Daily News Egypt — record USD 11.5bn / ~24% of exports
- State Information Service — official statement
